All programming subject to change

GENERAL INFORMATION

This document lays out the criteria to be used for selection to the Canadian team for the 2024 Road projects.

The criteria are organized by Section as follows:

- Section A – PROGRAM OVERVIEW
- Section B – ELIGIBILITY CRITERIA
- Section C – EVENTS CONSIDERED FOR SELECTION
- Section D – SPECIFIC SELECTION CRITERIA

The program objectives and calendar are stated in Section A.

Athletes must meet the Eligibility Criteria in Section B to be considered for selection.

Selection decisions are based on the Specific Criteria in Section D.

Unless expressly stated in the Specific Selection Criteria, selections are subject the General Selection Criteria found on the Cycling Canada website.

SECTION A – PROGRAM OVERVIEW

The Cycling Canada National Team Program is designed to contribute to Cycling Canada’s mission: “To Inspire Canadians to Cycle.”

International competition opportunities are the foundation of any national team program. They are an important motivator for athletes who hope to excel on the world stage. A well-designed national team program also creates a positive environment in which the athletes can learn as much as possible from the experience. The outcome should be well-rounded competitors with the life skills to excel in their future careers as cyclists and beyond.

Cycling Canada strives to achieve this through well-run National Team programming supported by professional staff who will help the athletes grow their skills and perform to their potential.

The Road selection process is intended to build well-rounded endurance cyclists through safe and efficiently executed competition projects; to function as a springboard for the future careers of athletes and staff members; and to position Canada for success at the World Championships and Olympic Games.

The 2024 Road Programming schedule includes development and performance opportunities for Junior, U23, and Elite athletes. Programming will support road athletes and help complement the development of athletes from other disciplines such as mountain bike and track.

Cycling Canada attempts to monitor international results by all of our athletes, but the calendar is crowded, and some may get overlooked. Athletes are encouraged to contact National Coach (Road Lead) Nigel Ellsay at nigel.ellsay@cyclingcanada.ca to provide updates on their performances and programming.

SECTION B – ELIGIBILITY CRITERIA

New for 2024, athletes must complete the [application form here](#) by the deadline listed below to be considered for selection to a project. This is to help ensure no interested and eligible athletes are overlooked, and to improve the timeliness of selection decisions by minimizing the number of athletes who decline a project after being selected.

Cycling Canada will only consider additional athletes once all applicants who have met the selection criteria below have been considered.

To be eligible for selection to the Canadian team, an athlete must:

- Be a Canadian citizen.
- Have a valid Canadian passport that does not expire before the date required by the consular authorities of the country in which the event is being held.
- Be in compliance with all relevant CC and UCI requirements for eligibility.
- Hold a valid UCI license indicating nationality as Canadian.
- Sign, submit and comply with the CC National Team Agreement.
- Have completed all relevant UCI, WADA and CCES anti-doping requirements.
- Have signed the consent form agreeing to be bound by the Universal Code of Conduct to prevent and address Maltreatment in Sport (UCCMS).
- Minors must have parental permission to participate in training programs and competitions.

Additional eligibility requirements may be detailed in the Specific Selection Criteria below.

SECTION C – EVENTS CONSIDERED FOR SELECTION

For the purposes of this policy, selection decisions will consider individual road race (RR) results, which include one-day road races, the general classification of road stage races, and road stages.

Individual time trial (ITT) results, whether one-day or time trial stages of stage races, will only be considered if specified in the selection criteria.

Team time trials, criteriums, prologues, or stage race jersey classifications other than the general classification will not be considered in selection decisions unless otherwise specified.

The classes of events on the UCI calendar are defined in UCI rule 2.1.005. For the purposes of this policy, the Canadian Championship is not considered a UCI event.

Elite/U23 Women’s RR; Elite Men’s RR

The World Championship Team will be selected to support one or more designated leaders. The leader(s) will be nominated at the discretion of the Coach Panel based on the demonstrated ability to achieve a podium result in a major international one-day event. The remainder of the team and up to 2 alternates will be nominated to support the team leader(s). It is understood that in creating the best possible team, the best individual athletes may not be selected.

All selections will consider:

- Results in UCI road events in the 12 months prior to the selection date. This includes the Canadian championships. Emphasis will be placed on top-5 results.
- The athlete’s attitude and composure in a team setting (see Appendix B).
- The athlete’s communication with Cycling Canada (see Appendix B)
- The athlete’s demonstrated ability to support a team leader in a major international one-day event and be a team player.

Note: In 2024, U23 women’s world titles will be awarded for the top-U23 athlete in the Elite Women’s ITT and Elite Women’s RR. One or more U23 athletes may be selected providing they demonstrate their ability to be competitive by achieving the following:

- Finishing top 5 in a UCI U23 NCup, Elite Class .1 or higher event in the 12 months prior to the selection date.

Elite/U23 Women’s ITT; Elite Men’s ITT

2 ITT starters and up to 2 alternates will be nominated based on:

- UCI and Canadian Championship ITT results in the 24-months prior to the selection date.
- The athlete’s attitude and composure in a team setting (see Appendix B).
- The athlete’s communication with Cycling Canada (see Appendix B)

These athletes may be selected from among or in addition to the athletes selected to the RR.

	<p>Any ties will be broken at the discretion of the Coach Panel considering finishing place, the level of the event, the depth of field and the difficulty of the course.</p> <p>One or more alternates per category may be named using the same criteria.</p>
Self-funding:	<p>Athletes are responsible for project fees and certain costs as outlined in the Athlete Fees Policy published on the Cycling Canada website. These costs will be communicated to the athlete at the time of selection. All outstanding project fees must be paid prior to the beginning of the project.</p>

APPENDIX B: Standards for Attitude, Composure and Communication

Attitude and composure

- Athletes with history in a Cycling Canada racing or training environment will be assessed as having a positive influence (constructive, comes with solutions, helps teammates and staff, etc.); or negative influence (demeans teammates and staff, attacks without solutions, does not help teammates and staff etc.). Athletes without a history in a Cycling Canada racing or training environment will not be assessed.

Communication with National Team Coach(es)

- Athletes are asked to provide monthly training updates to the National Team Coach(es) at a minimum from Feb. 1, 2024, to the selection date. This should include athlete-initiated communication by email, phone or in-person conversation with racing and training updates; and key power files either emailed or added to training monitoring platforms such as Training Peaks.
