**GENERAL INFORMATION**

This document lays out the criteria to be used for selection to the Canadian team for the 2025 Road projects.

The criteria are organized by Section as follows:

- Section A – PROGRAM CALENDAR
- Section B – ELIGIBILITY CRITERIA
- Section C – EVENTS NOT CONSIDERED FOR SELECTION
- Section D – SPECIFIC SELECTION CRITERIA

Athletes must meet the Eligibility Criteria in Section B to be considered for selection.

Selection decisions are based on the Specific Criteria in Section D.

Unless expressly stated in the Specific Selection Criteria, selections are subject the General Selection Criteria found on the Cycling Canada website.

SECTION B – ELIGIBILITY CRITERIA

Athletes must complete [this application form](#) by the deadline above to be considered for selection to a project. This is to help ensure no interested and eligible athletes are overlooked, and to improve the timeliness of selection decisions by minimizing the number of athletes who decline a project after being selected.

Cycling Canada will only consider additional athletes once all applicants who have met the selection criteria have been considered.

To be eligible for selection to the Canadian team, an athlete must:

- Be a Canadian citizen.

- Have competed in the most recent Canadian Road Championships, or have a valid exemption (see National Championships Attendance Policy on the CC website)
- Have a valid Canadian passport that does not expire before the date required by the consular authorities of the country in which the event is being held.
- Be in compliance with all relevant CC and UCI requirements for eligibility.
- Hold a valid UCI license indicating nationality as Canadian.
- Sign, submit and comply with the CC National Team Agreement.
- Have completed all relevant UCI, WADA and CCES anti-doping requirements and have a valid TUE for any medication that requires one.
- Have signed the consent form agreeing to be bound by the Universal Code of Conduct to prevent and address Maltreatment in Sport (UCCMS).
- Minors must have parental permission to participate in training programs and competitions.

Additional eligibility requirements may be detailed in the Specific Selection Criteria below.

SECTION C – EVENTS CONSIDERED FOR SELECTION

For the purposes of this policy, selection decisions will consider individual road race (RR) results, which include one-day road races, the general classification of road stage races, and road stages.

ITT (ITT) results, whether one-day or time trial stages of stage races, will only be considered if specified in the selection criteria.

Team time trials, criteriums, prologues, or stage race jersey classifications other than the general classification will not be considered in selection decisions unless otherwise specified.

The classes of road events on the UCI calendar are defined in UCI rule 2.1.005. For the purposes of this policy, the Canadian Championship is not considered a UCI event.

All results must be top half of the field unless otherwise specified. Field size is calculated based on the number of entrants in the official results on the UCI website, including athletes listed as DNS, DNF and DSQ.

At the sole discretion of the Coach Panel, equivalent results in UCI events in other disciplines may be considered for selection, providing the athlete has previously demonstrated the appropriate level of skill to compete safely in the event being selected for.

The following table gives general guidelines for what events are considered equivalent; any selections based on these events would be adjusted appropriately for depth of field. Selections that use results from events not listed here will be considered on a case-by-case basis and must be accompanied by a full rationale and approved by the CSO, DHPS and High Performance Committee.

Elite Women and Elite Men

Road Race

The World Championship Team will be selected to support one or more designated leaders. The leader(s) will be nominated at the discretion of the Coach Panel based on the demonstrated ability to achieve a top 5 result in a major international one-day event. The remainder of the team will be nominated to support the team leader(s). It is understood that in creating the best possible team, the best individual athletes may not be selected.

All selections will consider:

- Results in individual road events on the UCI calendar in the 12 months prior to the selection date. This includes the Canadian championships. Emphasis will be placed on top 5 results.
- The profile and course of the 2025 World Championships.
- The athlete's attitude and composure in a team setting (see Appendix B).
- The athlete's communication with Cycling Canada (see Appendix B)
- The athlete's demonstrated ability to support a team leader in a major international one-day event and be a team player.

	<p>Individual Time Trial Selections will be made at the discretion of the Coach Panel considering the following:</p> <ul style="list-style-type: none">• ITT results in the 24 months prior to the selection date. This includes the Canadian Championships. Priority will be placed on top 5 results.• The athlete’s attitude and composure in a team setting (see Appendix B).• The athlete’s communication with Cycling Canada (see Appendix B). <p>These athletes may be selected from among or in addition to the athletes selected to the RR.</p> <p>Mixed Relay Team Time Trial 3 women and 3 men and up to 1 alternate per gender will be nominated from among the starters in the Elite and U23 events at the discretion of the Coach Panel based on an assessment of the athletes’ ability to contribute to a competitive result.</p> <p>Any ties will be broken at the discretion of the Coach Panel considering finishing place, the level of the event, the depth of field and the difficulty of the course.</p> <p>One or more alternates per category may be named using the same criteria.</p> <p>* “Europe” refers to the member nations of the Union européenne de cyclisme (UEC)</p>
Self-funding:	<p>Athletes are responsible for the following costs:</p> <ul style="list-style-type: none">• Flights and baggage fees• \$100/day project fee* <p>* Project fees are based on Cycling Canada’s Athlete Fees policy and are subject to change should the project parameters change. Project fees must be paid two weeks prior to the beginning of the project.</p>

**APPENDIX A: Points Scoring System**

The points scoring system is devised to make objective selections where specifically mentioned in the selection criteria.

Results will be scored using the following points scale and multipliers:

Placing	Points
1st	5
2nd	4
3rd	3
4th	2
5th	1

Race type	Multiplier
Stage	1.0
GC	1.5
One-day	1.5

Race category	Multiplier
Non-classed or non-UCI	1
Class 2 & .U	1.5
Class 1, Ncup & CN	3
Class Pro	6
Class WT & WWT	12

Multipliers are applied cumulatively. For example, a GC win in a Class 1 event would score 22.5 points ($5 \times 1.5 \times 3 = 22.5$), while a stage win in a Class 2 event would score 7.5 points ($5 \times 1 \times 1.5 = 7.5$).

Race type multipliers are devised to provide more weight to stage results than does the UCI because the selection panel values characteristics of stage and one-day race results. Stage results showcase characteristics similar to one-day racing: tactical ability, boldness (i.e. not holding back), and physical fitness.

Race category multipliers are based on the relative weight given to different race levels in the UCI's points system.

APPENDIX B: Standards for Attitude, Composure and Communication

Attitude and composure

- Athletes with history in a Cycling Canada racing or training environment will be assessed as having a positive influence (constructive, comes with solutions, helps teammates and staff, etc.); or negative influence (demeans teammates and staff, attacks without solutions, does not help teammates and staff etc.). Athletes without a history in a Cycling Canada racing or training environment will not be assessed.

Communication with National Team Coach(es)

- Athletes are asked to provide **monthly** training updates to the National Team Coach(es) at a minimum from Feb. 1, 2025, to the selection date. This should include athlete-initiated communication with National Team Coach Nigel Ellsay (nigel.ellsay@cyclingcanada.ca) by email, phone, or in-person conversation with:
 - Racing and training updates; and
 - Key power files emailed or by adding coach Nigel to training monitoring platforms such as TrainingPeaks.
