**GENERAL INFORMATION**

This document lays out the criteria Cycling Canada (CC) will use to select the National Team for 2026 Road projects.

The program calendar is found in Section A.

Athletes must meet the Eligibility Criteria in Section B to be considered for selection.

Athletes earn selection by achieving results in events defined in Section C.

Selection decisions are based on the Specific Criteria in Section D.

Unless expressly stated in the Specific Selection Criteria, selections are subject the General Selection Criteria found on the CC website.

SECTION B – ELIGIBILITY CRITERIA

To be eligible for selection to the Canadian team, an athlete must:

- Be a Canadian citizen.
- Have competed in the most recent Canadian Road Championships, or have a valid exemption (see National Championships Attendance Policy on the CC website)
- Have a valid Canadian passport that does not expire before the date required by the consular authorities of the country in which the event is being held.
- Be in compliance with all relevant CC and UCI requirements for eligibility.
- Hold a valid UCI license indicating nationality as Canadian.
- Sign, submit and comply with the CC National Team Agreement.
- Have completed all relevant UCI, WADA and Sport Integrity Canada anti-doping requirements.
- Have signed the consent form agreeing to be bound by the Universal Code of Conduct to prevent and address Maltreatment in Sport (UCCMS).
- Minors must have parental permission to participate in training programs and competitions.

Additional eligibility requirements may be detailed in the Specific Selection Criteria below.

SECTION C – EVENTS CONSIDERED FOR SELECTION

For the purposes of this policy, selection decisions will consider individual road race (RR) results, which include one-day road races, the general classification of road stage races, and road stages.

Individual Time Trial (ITT) results, whether one-day or stages of stage races, will only be considered if specified in the selection criteria. Team time trials, criteriums, prologues, or stage race jersey classifications other than the general classification will not be considered in selection decisions unless otherwise specified.

Unless otherwise specified, results must be achieved in events of the same age category or higher than the event being selected for (e.g. a junior result cannot be considered for selection to a U23 event, but an elite result can be considered for selection to a U23 event).

Unless otherwise specified, for the purposes of this policy, results will include all athletes, not only those who applied for selection.

The classes of road events on the UCI calendar are defined in UCI rule 2.1.005. For the purposes of this policy, the Canadian Championship is not considered a UCI event.

All results must be top half of the field unless otherwise specified. Field size is calculated based on the number of entrants in the official results on the UCI website, including athletes listed as DNS, DNF and DSQ.

At sole the discretion of the Coach Panel, equivalent results in UCI events in other disciplines may be considered for selection, provided the athlete has previously demonstrated the appropriate level of skill to compete safely in the event being selected for. Selections based on equivalent results will be assessed on a case-by-case basis considering:

- the level of the event the result was achieved in;
- the compatibility of the physiological demands of the event the result was achieved in to the event being selected for;
- the depth of field of the competition the result was achieved in; and
- the athlete's demonstrated experience and skill in the event being selected for.
