- Be a Canadian citizen.
- Have a valid Canadian passport that does not expire before the date required by the consular authorities of the country in which the event is being held.

Additional eligibility requirements may be detailed in the Specific Selection Criteria below.

SECTION C – EVENTS CONSIDERED FOR SELECTION

Selections will only consider results from the events cited in this policy unless other results are required to exercise Coach Panel discretion.

All results must be top half of the field unless otherwise specified. Field size is based on the official results on the UCI website, including athletes listed as DNS, DNF and DSQ.

In cases where the number of participants is restricted because of qualification processes or other types of restrictions, the number of participants in the qualification process may be taken into consideration.

Unless otherwise specified, results must be achieved in events of the same age category or higher than the event being selected for (e.g. a junior result cannot be considered for selection to a U23 event, but an elite result can be considered for selection to a U23 event).

Unless otherwise specified, for the purposes of this policy, results will include all athletes, not only those who applied for selection.

Athletes must have met the CC time standards that are in effect on the selection date for any selection that refers to time standards.
