Additional eligibility requirements may be detailed in the Specific Selection Criteria below.

All selection decisions must be submitted to and approved by the Canadian Olympic Committee **no later than June 17, 2027**.

SECTION C – EVENTS CONSIDERED FOR SELECTION

Selections will only consider results from the events cited in this policy unless other results are required to exercise Coach Panel discretion.

For the purposes of this policy, the Canadian Championship is not considered a UCI event and will only be considered for selection if specified in the specific criteria below.

All results must be top half of the field unless otherwise specified. Field size is based on the official results on the UCI website, including athletes listed as DNS, DNF and DSQ.

In cases where the number of participants is restricted because of qualification processes or other types of restrictions, the number of participants in the qualification process may be taken into consideration.

Unless otherwise specified, results must be achieved in events of the same age category or higher than the event being selected for (e.g. a junior result cannot be considered for selection to a U23 event, but an elite result can be considered for selection to a U23 event).

Unless otherwise specified, for the purposes of this policy, results will include all athletes, not only those who applied or who are eligible for selection.

At the sole discretion of the Coach Panel, equivalent results in UCI events in other disciplines may be considered for selection, provided the athlete has previously demonstrated the appropriate level of skill to compete safely in the event being selected for. Selections based on equivalent results will be assessed on a case-by-case basis considering:

- the level of the event the result was achieved in;
- the compatibility of the physiological demands of the event the result was achieved in to the event being selected for;
- the depth of field of the competition the result was achieved in; and
- the athlete's demonstrated experience and skill in the discipline being selected for.

SECTION E: GENERAL SELECTION POLICY

1. DECISION MAKING AUTHORITY

Selection decisions are made in accordance with the published Specific Selection Criteria by the individuals and groups identified in the selection criteria.

These criteria are duly constituted by CC coaches and staff and are reviewed and approved according to the process below.

Cycling Canada selection criteria development process:

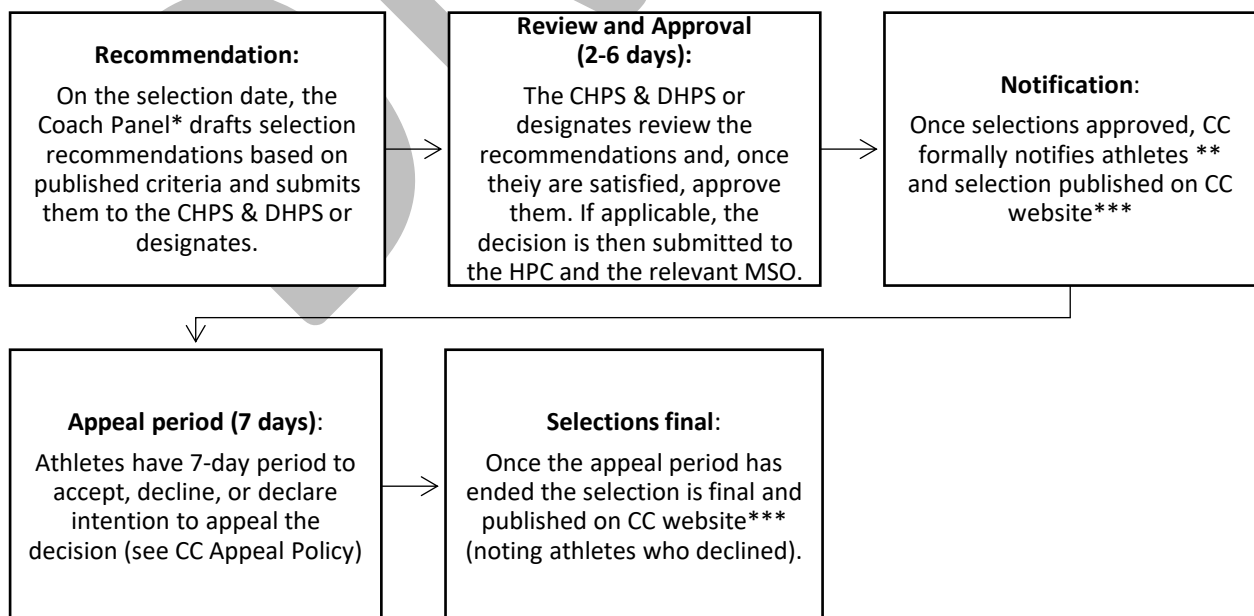

* Major Games selection criteria must also be reviewed and approved by the relevant MSO (Canadian Olympic Committee, Canadian Paralympic Committee, or Commonwealth Sport Canada).

** Any feedback will be incorporated into the final version at the discretion of CC and with the approval of the HPC. Subsequent changes to the final version will only be made to correct errors or to reflect changes in the competition calendar or to National Team programming.

Selection decisions are made according to the process below.

Cycling Canada Selection process:

Selection Criteria for the 2027 Pan American Games

* The composition of each Coach Panel is posted on the CC website.

** Selected athletes and alternates are informed by CC staff by email; all other athletes are informed by publication of the selection decision.

*** For Major Games CC must coordinate any public announcements with the relevant Multi-sport Organization so it may not be possible to immediately publish selection decisions. In these cases, all eligible athletes will be contacted directly regarding their selection status before any public announcement.

Once the published selection date has passed, if athletes withdraw or decline selection, they will be replaced with named alternates in the order of selection, subject to any applicable nomination deadlines. If there are no more alternates, the positions may be unfilled, or additional athletes may be nominated at the discretion of the Coach Panel per Clause 5 of this policy.

Once the competition has started, all final decision-making authority will reside with the designated team leader. The starting composition for team events shall be determined on site by the coach of that event.

2. INTERNATIONAL FEDERATION (IF) CRITERIA

The maximum size of Canada's delegation and eligibility requirements will be determined by the quotas and/or qualification system imposed by the International Cycling Union (UCI).

3. OTHER FACTORS THAT MAY BE CONSIDERED IN SELECTION

Selection may require assessment that takes into consideration one or more additional factors that are not mentioned in the Specific Criteria. These factors are chosen at the discretion of the Coach Panel. Factors that can be objectively measured are preferred, and the Coach Panel may only consider factors that are relevant to the event athletes are being nominated for and that that can be applied to all athletes being considered for a given position on the team.

Any assessment using Other Factors must be fully documented by the Coach Panel, with supporting evidence. In the event of an appeal, this information will be shared with all parties to that appeal.

4. EXTENUATING CIRCUMSTANCES

In considering the performances and results of athletes at events, trials, training camps or other attendances required under this Policy, the selection committee may, at its discretion, give weight to extenuating circumstances in accordance with this Policy.

For the purposes of this Policy, extenuating circumstances means an inability to compete, attend training camps or perform at an optimum level arising from any one or more of the following:

- Injury or illness (documented at the time the incident occurred and accompanied by a certified medical explanation).
- Pregnancy.
- Travel restrictions or delays outside the athlete's control.

Athletes unable to attend events, trials or training camps required in this Policy must advise the DHPS of the extenuating circumstances in writing with as much advance notice as possible, ideally more than seven (7) days prior to the events, trials, or camps.

In the case of injury or illness, athletes are required to provide a medical note from a medical doctor, physiotherapist, massage therapist, athletic therapist, psychiatrist or psychologist. The athlete may be asked to undergo a medical examination by a medical practitioner/s nominated by CC and to provide the opinion and/or report of such practitioner to the DHPS. An athlete may also be asked to demonstrate their performance readiness for the event being selected for (see Clause 6 of this policy).

Selection Criteria for the 2027 Pan American Games

The determination of an extenuating circumstance will be made on a case-by-case basis. Such determination will be made by the DHPS and documented appropriately. The acceptance of an extenuating circumstance is not a guarantee of selection.

5. OTHER SELECTION MATTERS

CC reserves the right to enter a larger or smaller team or no team at all in any category for any Event, regardless of the number of athletes who have met the specific selection Criteria, for reasons including, but not limited to, CC's assessment of the athletes' ability to meet the performance objectives; budgetary restrictions; or other factors not under CC's control. CC will endeavor to notify individuals affected by such a decision as soon as practicable, with the rationale for the decision.

- Additional athletes (up to the maximum number of athletes allowed in the event) may be added to a selection after the Selection Date, at the discretion of the Selection Committee.
- An athlete may be removed from a team in accordance with Clause 7 of this policy.

6. PERFORMANCE READINESS AND INJURIES

All selections made using these criteria are subject to an assessment of the athlete's performance readiness.

"Performance readiness" is defined as the ability of the athlete to achieve equal or superior performance(s) onsite at the scheduled event, as compared to the performance(s) that led to the athlete being selected to represent Canada at the event. The final decision on an athlete's performance readiness will be made by the Coach Panel, using all available information at their disposal, including performance results and progress, the suitability of the athlete's training and competition plan, fitness and other indicators, submitted medical documentation, consultation with the athlete's personal coach, and any other relevant performance-related information.

Once selected, all athletes are expected to be training towards or to meet the performance standards communicated by CC. These standards on their own will not be used to include or exclude an athlete from selection, but they will be used by CC to measure and monitor the athlete's training, progress and preparation.

Mandatory training camps may be scheduled for evaluation and preparation for a project. Any athlete who does not attend these camps may have their selection revoked unless the athlete has been given written permission by CC. Valid reasons for missing a camp include injury, illness and professional team obligations. However, the training camp may be integral to optimal performance at the event, so having a valid reason to miss a camp does not guarantee the athlete's selection.

Once selected, athletes whose performance readiness is detrimentally affected by their health status, lack of fitness, or capacity to train and/or perform may be removed from the team at any time. Any such removals are subject to the same approval process as for selection. Athletes are required to immediately report any injury, illness, or change in training that could affect their ability to compete at their highest level at the project being selected for. Notification must be sent to the relevant National Coach and/or the DHPS.

In the case of injury or illness, the Coach Panel will consider medical recommendations from CC's practitioners and/or other qualified medical practitioners in making a final decision about an athlete's nomination. Injured or ill athletes may be subject to a proof of readiness test to be determined by the relevant National Coach in consultation with the athlete's personal coach. Any athletes subject to a proof of readiness test will not travel to the project until this requirement has been satisfied. Once onsite at the project, if it is determined that an athlete is not competition ready or has not disclosed an injury or illness, they may be asked to return home immediately. The National Coach in charge of the project will have the authority to make such onsite decisions, at their sole discretion.

7. REMOVAL OF AN ATHLETE ONCE SELECTED

An athlete may be removed from selection if she or he:

Selection Criteria for the 2027 Pan American Games

- Fails to maintain performance readiness as outlined in Clause 6 of this policy.
- Breaches or fails to comply with this Policy or any term of the CC Athlete Agreement.
- Breaches or fails to comply with:
 - CC National team policy
 - CC Code of Conduct
 - The rules established by Sport Integrity Canada
 - The rules of any event, competition, or activity in which the athlete has been selected to participate
 - Any reasonable instruction or request by the DHPS or National Team Coach
- Brings him/herself, another athlete in the Team, the Team as a whole, an official, CC, or cycling generally, into disrepute.

Removal from the team is subject to the same approvals process as for selection.

CC will advise the affected athlete, in writing, of the decision.

8. CONFLICT OF INTEREST

Anyone with decision-making authority must declare any potential real or perceived conflicts of interest as defined in the Conflict of Interest guidelines on the SDRCC website prior to participating in a selection decision.

This declaration will be reflected in the meeting notes related to the selection decision, and, depending on the conflict of interest, that person may recuse themselves partly or fully from the decision.

In any cases where it is unclear if there is a conflict of interest, the HPC will determine whether recusal is required.

For more information, please see CC's Conflict of Interest Policy, the SDRCC website, and the Coach Panel document.

9. AMENDMENTS & UNFORESEEN CIRCUMSTANCES

In situations where unforeseen circumstances do not allow the selection process to be fairly and objectively applied, the DHPS, in consultation with the HPC, reserves the right to rule on an appropriate course of action.

10. APPEALS

Any selection decisions by CC may be appealed in accordance with the procedures set out in the CC Appeals Policy, published on the CC website. Appeals may also be brought directly to the SDRCC with the consent of all parties.

11. STAFF SELECTION (Coaches, Team Leaders, other support staff)

The CHPS and DHPS or delegates have sole discretion in selecting the support staff, including coaches, for National Team projects. Support staff will be selected on the principle of supporting athletes to achieve the stated performance targets.

12. FUNDING

Athletes attending CC National Team projects may be required to make a reasonable contribution to the cost of each project. These amounts are calculated based on the Athlete Fees Policy published on the CC website.

Self-funding accounts for less than 5% of high performance revenue but helps CC deliver more effective programming to a broader group of athletes.
